Profile Summary

Computer Science Engineering graduate interested in Artificial Intelligence, Machine Learning, and backend development. Currently exploring these areas through hands-on projects, focusing on building practical solutions to real-world problems and continuously learning new technologies.

Technical Skills

Programming: Python, Java, C

Backend Development: Flask, Django

Databases: MySQL, SQLite

Web Basics: HTML, CSS, JavaScript

AI / ML: RAG, NLP, TF-IDF, Embeddings, CNN, LSTM

Tools: Git, GitHub, VS Code

Projects

AgriBot – RAG-Powered Agriculture Assistant

Python, Django, RAG, ChromaDB, Groq

- Developed an AI-powered agriculture assistant using RAG to provide answers from an agricultural knowledge base.

- Built document processing and semantic retrieval using embeddings and ChromaDB.

- Integrated a Groq-hosted LLM to generate contextual answers with source references.

Robust Intelligent Malware Detection

Python, CNN, LSTM

- Developed a deep learning-based malware classification system using CNN and LSTM models.

- Used CNN for feature extraction and LSTM for learning sequential patterns in malware data.

- Trained and evaluated models to improve malware classification performance.

Education

B.Tech in Computer Science and Engineering

2022 – 2026

Malla Reddy College of Engineering, Hyderabad | CGPA: 7.76

Intermediate (MPC)

2020 – 2022

Sri Chaitanya Junior Kalasala | 90.2%

SSC

2020

Nava Jyothi High School | GPA: 10.0

Certifications

- CS50x – Introduction to Computer Science (Harvard – edX)

- CS50P – Introduction to Python (Harvard – edX)

Achievements

- Certificate of Merit – 98 Percentile, Naukri Campus Young Turks 2025

- 2nd Place – AI Chatbot Competition, MRCE

- Paper Presentation – VISISTA 2K25 Tech Fest

- Hackathon Participation – College-Level Events
